Reconditioning of hot chamber die casting machine

manufacturer : partnership

Product number:
RWK8010

Description

Reconditioning of Hot Chamber Die Casting Machine

Are you looking to enhance the performance of your hot chamber die casting machine? Our reconditioning service offers a comprehensive scope of service including functional control, closing unit overhaul, part overhaul, and general overhaul. Trust our experts to bring your machine back to top working condition.

- **Scope of service:** Comprehensive reconditioning service tailored to your needs.
- **Functional control:** Thorough inspection to ensure optimal functionality.
- **Closing unit overhaul:** Expert maintenance to improve the closing unit.
- **Part overhaul:** Detailed service to enhance individual machine parts.
- **General overhaul:** Complete reconditioning for peak performance.

Reconditioning of hot chamber die casting machine

Scope of performance	functional control	Closing unit overhaul	Part overhaul	General overhaul
Cleaning, disassembly and measurement	x	x	x	x
Inspection for cracks	x	x	x	x

Created on 07.11.2026
Subject to changes in the technical description and prior sale.
