

## Lac KNC/V 270/65 vertical chamber furnace O1725, used

**manufacturer :** Lac

**Product number:**  
O1725

### Description

#### Chamber furnace

|                     |                  |
|---------------------|------------------|
| Manufacturer        | LAC              |
| Model               | KNC/V 270/65     |
| Design              | vertical chamber |
| Heating             | electrical       |
| Year of Manufacture | 2015             |
| Comments            |                  |

#### Technical data

|  |                   |
|--|-------------------|
| Tmax                                     | 650 °C            |
| Recommended operating temperature rangeC | 300-600 °C        |
| Volume                                   | 270 l             |
| External dimensions (w × h × d)          | 1600×1250×2500 mm |
| Internal dimensions (w × h × d)          | 700×650×600 mm    |
| Input                                    | 18 kW             |

Technical data

Weight 800 kg

Protection 50/3

Max. load capacity of bottom 400 kg

Delivery time immediatley

Price on request
